

CAPABILITY STATEMENT

Established in 2007, Allintel is a trusted provider of comprehensive technology solutions, specializing in enterprise business intelligence, modern full-stack application development, and legacy system modernization. With a commitment to excellence and technical depth, we deliver tailored solutions across government and commercial sectors.

CORE COMPETENCIES

- Enterprise Business Intelligence & MicroStrategy Implementation
- Full-Stack Application Development (Spring Boot, Angular, Django)
- Legacy System Modernization & Cloud Migration
- Enterprise Data Warehousing & Database Architecture
- DevOps & CI/CD Implementation (Docker, Jenkins, GitLab)

MICROSTRATEGY IMPLEMENTATION

Premier provider of MicroStrategy implementation services, delivering comprehensive solutions tailored to the analytical needs of our clients. With a focus on leveraging the full potential of the MicroStrategy platform, we empower organizations to gain actionable insights and drive strategic decision-making.

Past Performance

- ▶ Implemented a modern Budget Formulation and Forecasting system for HUD, featuring an intuitive interface, writeback functionality, and automated alerts for enhanced productivity.
- ▶ Created complex dashboards using the MicroStrategy SDK for the State Department, providing actionable insights to support informed decision-making.

MODERN APPLICATION DEVELOPMENT

Our expertise spans full-stack application development using Spring Boot, Angular, and Django — including legacy system modernization, containerized deployment with Docker, and CI/CD pipeline implementation for reliable, repeatable delivery.

Past Performance

- ▶ Successfully delivered a new website for the State of Maryland, integrating front-end interface, back-end servers, database, web services calls, and authentication/authorization modules for hundreds of online users.
- ▶ Developed a fast, responsive property search page for the HUD website, facilitating efficient searches for FHA-insured and Multifamily Assisted properties, with close to half a million searches since launch.
